FEBRUARY 2025 | ANALYSIS & UPDATES FROM THE INTERNATIONAL PEOPLES' ASSEMBLY

## Women's Struggles, Feminism, and International Solidarity

Internationalist and feminist greetings! Welcome to 2025's second edition of the **In Movement** Newsletter, brought to you by the **International Peoples' Assembly (IPA)**. March 8 marks **International Women's Day**, a day of mobilization, resistance, and collective strength for women and gender-oppressed people worldwide. This is a day to celebrate our struggles and a reminder of the historical and ongoing fight against patriarchal oppression, capitalism, imperialism, and all forms of exploitation. From the streets to workplaces, from fields to factories, from classrooms to the frontlines of political resistance, women continue to rise and organize!

This year, **the call for solidarity is more urgent than ever**. Women in Palestine are facing unspeakable violence as part of Israel's brutal occupation, yet they continue to resist, leading movements for liberation in the face of

genocide. In the Sahel region, women are reclaiming their role in shaping a future free from imperialist domination. In Latin America, feminist movements are challenging neoliberal policies that deepen inequality and violence. Across Africa and Asia, women workers are organizing against exploitation and colonialism, and fighting for their rights. The global feminist movement is mobilized to fight against U.S. militarism and imperialism across the world!

Today, as far-right forces attempt to roll back hard-won gains, feminist movements worldwide are reaffirming that the fight for liberation is inseparable from the fight against fascism, capitalism, and imperialism. **Feminism is, at its core, an anti-imperialist struggle**—one that understands how true liberation can only come when oppressive structures are dismantled at all levels.

As we mark March 8, we reaffirm our commitment to a **people's feminism**, and a revolutionary and anti-imperialist feminism. **When women rise, the world rises with them!**

## Updates

### Renewed Struggles of the IPA

This February, the International Peoples' Assembly (IPA) Coordinating Commission held its annual meeting, this time in the city of Guararema, Brazil. More than 80 leaders from 30 countries—representing popular movements, trade unions, and political parties from the six regions that make up our process—participated in the gathering. Among the agreements reached, the commitment to strengthening solidarity among the peoples of the world was reaffirmed through campaigns on Palestine, Sudan, Cuba, Venezuela, Haiti, and the Sahel. Additionally, preparations are underway for a year-long anti-imperialist struggle in 2025, which will combine mass mobilizations with agitation and propaganda campaigns across Latin America and the Caribbean, Africa, Asia, the Arab-Maghreb region, and Europe, as well as resistance in “the belly of the beast” in North America.

### Solidarity with the Congolese people

We support the initiative of the Pan Africanism Today (PAT) Secretariat in joining with people's movements and organizations around the world to express their deep concern over the recent escalation in the ongoing conflict in the Democratic Republic of Congo. We call on progressive organisations throughout Africa, Latin America, Asia and the world to stand in solidarity with the people of the Congo who are fighting for their sovereignty, territorial

integrity, peace, justice, human dignity and freedom. We understand that the Congo is central to the future stability of the entire African continent. As the revolutionary Pan Africanist Kwame Nkrumah said, “The Congo is the heart of Africa, any wound inflicted upon the Congo is a wound to the whole of Africa.” Read PAT’s statement [here](#).

## Red Books Day

On February 21, the International Peoples’ Assembly joined the International Union of Left Publishers and the Tricontinental Institute in celebrating Red Books Day. This year marks 177 years since the release of the Communist Manifesto, written by Karl Marx and Friedrich Engels. To commemorate the date, the IPA and ALBA Movimientos, together with the schools of political education of Latin America and the Caribbean, prepared a list of reading suggestions. For us, every day is a day to read and celebrate red books. We invite you to join us by sharing which book made you become a red activist. Check out the list of suggestions [here](#).

## Revolutionary Culture Database

Art and culture are powerful tools in the revolutionary process, shaping identities and strengthening people’s struggles. The International Peoples’ Assembly is creating a global revolutionary culture database to celebrate the artistic and cultural expressions of movements worldwide. By contributing, you help us deepen our collective understanding of international movements, build a shared internationalist cultural identity, and collaborate on social media to amplify revolutionary culture. Fill out [this form](#). Together, let’s uplift the cultural voices of our struggles!
